Committed to Quality.

Committed to Healthcare The Surgical Way

Committed to Quality Product

ORGANIZATION

Company was established in 1996 is actively involved in manufacturing and supplying of medical disposable Medical Devices surgical products to meet the demand of health care industries as per Indian standards and international standards with small base and broad spectrum vision.

By virtue of experience company has mastered the product and gathered expertise in testing of medical surgical disposable products. Company is in position to meet the customer's requirement in terms of product quality, range & quantity. Company has a team of competent personnel to do their functions and thus deliver the products to the customer's satisfaction. Company has already earned recognition about their capabilities to make product as per customer's specifications and to any specific demand.

THE QUALITY AIM

Company is provide best quality product for best human health by overview of the structure of the Quality Management System. Our quality control standards have achieve as the ISO & BIS.

COMMITMENT

The Organization is committed to understand the customer's requirement including those of statutory, regulatory, delivery and the post delivery activities to quality of products with Quality Management System.

QUALITY POLICY

We shall achieve customer satisfaction by means of establishing and sustaining an effective quality management system that ensure to provide customer requirement with Quality Assurance.

- Reliable quality of disposable product at competitive rate.
- By introducing new range of Medical Devices products.

As a customer focused company we shall be able to understand changing customer requirements time to time and continuously improve our quality management system.

INFRASTRUCTURE

The infrastructure requirement such as the Land, Building, Workspace, Utilities equipments, Communications facilities are sophisticated, dedicated and modernized. We have

- Class 10,000 Assembly Room
- Class 1,00,000 Assembly Room
- In house Quality control testing and R&D department
- Modernized Computerized Automation E.T.O Sterilization plant
- Specific work environment is maintained for the production as per statutory requirement and regulatory requirement

QUALITY CONTROL & MANAGEMENT SYSTEM

Product realization has planned and developed the process needed through quality management system like.

- All manufacturing process under hygienic condition.
- In coming raw material testing before it is used in production process.
- In process testing in production quality control and checked at all levels.
- Inspection quality control & checked.
- Finish product quality control testing. It include physical, chemical & biological testing as per statutory requirement and regulatory requirement.

IMPROVEMENT

The management of the company shall continuously improve the Quality Management System on basis of following points during the Management.

- Quality policy with quality objectives.
- Analysis of product
- Corrective Action
- Preventive action
- Customer feed back

At Hindustan Surgical, our pursuit of excellence is a reflection of our commitment to matters closest to our hearts - such as care, concern and love for humanity.

While our technologies are truly
state - of the - art,
our business model is
state - of the - heart.

Innovations, quality standards, products...
Everything flows forth from our passion
to touch life in a meaningful way.

INTRAVENOUS INFUSION SET (REGULAR)

- Conforms to international standards.
- Special beveled extra strong spike.
- Cylindrical collapsible chamber **13mm** with filter, fitted direct to spike for convenience.
- Disc filter in chamber ensures filtration of administered fluid.
- Super smooth kink resistant tubing with very efficient roller controller for accurate & unrestricted flow.
- Self-sealing latex tube for extra medication & easy flushing.
- Needle 20G,21G,22G for smooth flow.
- Drops Size of 20 Drops / ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

INTRAVENOUS INFUSION SET (ECO)

- Conforms to international standards.
- Special Design beveled extra strong spike.
- Cylindrical collapsible chamber with **14mm** filter, fitted direct to spike for convenience.
- Disc filter in chamber ensures filtration of administered fluid.
- Super smooth kink resistant tubing with very efficient roller controller for accurate & unrestricted flow.
- Self-sealing latex tube for extra medication & easy flushing.
- Needle 21 G for smooth flow.
- Drops Size of 20 Drops / ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

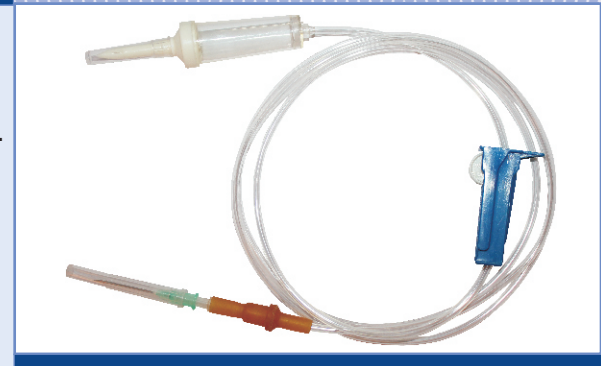

INTRAVENOUS INFUSION SET (ACCU CHECK)

- Conforms to international standards.
- Special beveled extra strong spike.
- Cylindrical collapsible chamber **15mm** with filter, fitted direct to spike for convenience.
- Disc filter in chamber ensures filtration of administered fluid.
- Super smooth kink resistant tubing with very efficient roller controller for accurate & unrestricted flow.
- Self-sealing Bulb latex tube for extra medication & easy flushing.
- Needle 21 G for smooth flow.
- Drops Size of 20 Drops / ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

INTRAVENOUS INFUSION SET (ACCURATE)

- Conforms to international standards.
- Special beveled extra strong spike.
- Cylindrical collapsible chamber **17mm** with filter, fitted direct to spike for convenience.
- Disc filter in chamber ensures filtration of administered fluid.
- Super smooth kink resistant tubing with very efficient Hock type roller controller for accurate & unrestricted flow.
- Self-sealing latex bulb for extra medication & easy flushing.
- Needle 21 G for smooth flow.
- Drops Size of 20 Drops / ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

INTRAVENOUS INFUSION SET (ACTIVE)

- Conforms to International Standards.
- Special beveled extra strong spike.
- Flexible **Butterfly Shaped finger grip** drip chamber facilitate rapid adjustment of fluid.
- Disc filter in chamber ensures filtration of administered fluid.
- Highly kink resistant tubing. Roller clamp for flow control.
- Self sealing latex Bulb for extra medication & easy flushing.
- Needle 21G for smooth flow.
- Drop size of 20 drops/ml.
- Individually packed, For single use only.
- Disposable non toxic & pyrogen free.
- Sterile ready for use.

INTRAVENOUS INFUSION SET (PREMIUM)

- Sharp and easy piercing non vented spike
- Latex free
- Also available with long drip chamber (17mm)

Options available :

- With or without needle
- Luer lock or rotating luer lock
- “Y” injection port (latex free)
designed for multiple injections
- Needle free Y-site
- Plastic pack or blister paper pack

INTRAVENOUS INFUSION SET (AIRVENT PLUS)

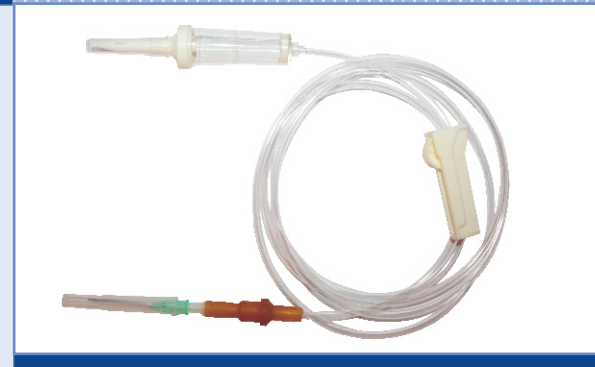

- Sharp and easy piercing vented spike
- Bacteria retention air inlet with snap on cap
- Latex free
- Also available with long drip chamber (17mm)

Options available :

- With or without needle
- Luer lock or rotating luer lock
- “Y” injection port (latex free) designed for multiple injections
- Needle free Y-site
- Plastic pack or blister paper pack

INTRAVENOUS INFUSION SET (PAPER POUCH)

- Conforms to international standards.
- Special beveled extra strong spike.
- Cylindrical collapsible chamber **15mm** with filter, fitted direct to spike for convenience.
- Disc filter in chamber ensures filtration of administered fluid.
- Super smooth kink resistant tubing with very efficient roller controller for accurate & unrestricted flow.
- Self-sealing Bulk latex for extra medication & easy flushing.
- Needle 21 G for smooth flow.
- Drops Size of 20 Drops / ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

MICRO INFUSION SET (MICRO)

- Conforms to international standard.
- Extra strong bevel shaped spike for easy penetration.
- Highly kink resistant tubing Roller clamp for flow controller.
- Cylindrical drip chamber **17mm** provided with filter to prevent passage of any clot in to the patient.
- Disc filter in chamber ensures filtration of administered fluid.
- Efficient roller controller for accurate adjustment of Infusion rate.
- Self-sealing latex bulb for extra medication & easy flushing.
- Needle 23G for smooth flow.
- Drop size of 60 Drop/ml.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.

BLOOD ADMINISTRATION SET (S.C)

- Conforms to International Standards
- Cylindrical Single drip chamber (**15mm / 17mm**) provided with filter to prevent passage of any clot into the patients.
- Efficient roller controller for accurate adjustment of infusion rate.
- Self sealing latex tube for extra medication and easy flushing
- Needle 18G x 1 ½ " for smooth flow
- Individually packed.
- For single use only.
- Sterile ready for use.

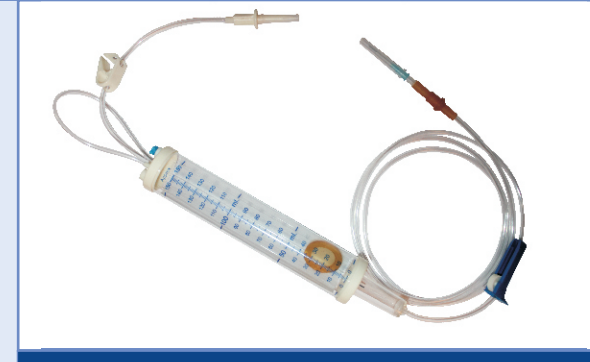

BLOOD ADMINISTRATION SET (D.C)

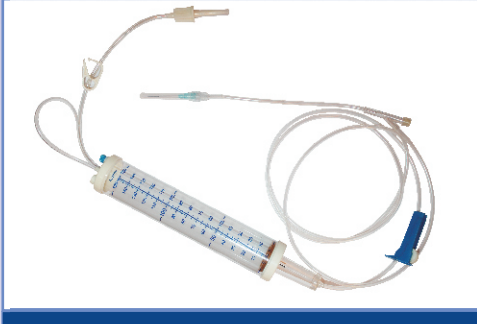

- - Conforms to International Standard.
- - Transparent & flexible double drip chamber facilitates visual access and rapid adjustment of fluid level.
- - Extra strong bevel shaped spike for easy penetration. Highly kink resistant tubing.
- - Efficient roller controller for accurate adjustment of infusion rate.
- - Self sealing latex bulb for extra medication & easy flushing.
- - Packing ensures sterility till the product is actually used.
- - Needle 18 G x 1 ½ " for smooth flow.
- - Drop size 20 drops/ml.,
- - Individually packed. For single use only.
- - Disposable non toxic & pyrogen free.
- - Sterile ready for use.

MEASURED VOLUME SET (MEDILINE)

- Burette type measured volume of 110ml / 150ml. with 10ml., overflow limit.
- Efficient Roller controller for better flow control.
- Specially designed floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent air trapping in the fluid line.
- Separate plug for extra medication and continues change over.
- Drop size of 60 drops/ml.,
- For single use only.
- Individually packed.
- Inner box of 20 pcs.
- Disposable, non toxic & pyrogen free.
- Capacity : 110ml.,/150ml.,
- Sterile ready for use.

MEASURED VOLUME SET (MEDIDRIP)

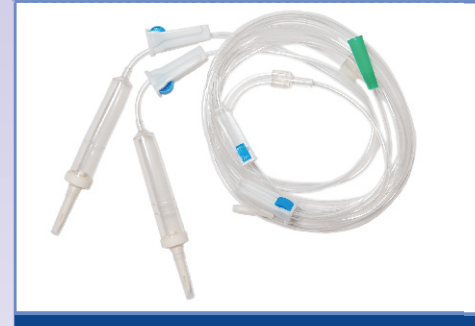

- Transparent, Soft, cylindrical & calibrated measured volume chamber with bold marking scale
- Bacteria retentive air inlet
- Injection port for intermittent medication
- Automatic shut off valve prevents air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid
- 15 microm fluid filter to reduce particulate matter
- Approximately 60 drops/ml
- Soft and kink resistant PVC tubing
- Standard tube length : 1500 mm
- Tube dia : I Ø 3.0 mm. & O Ø 4.1 mm
- Available in size: 150 ml

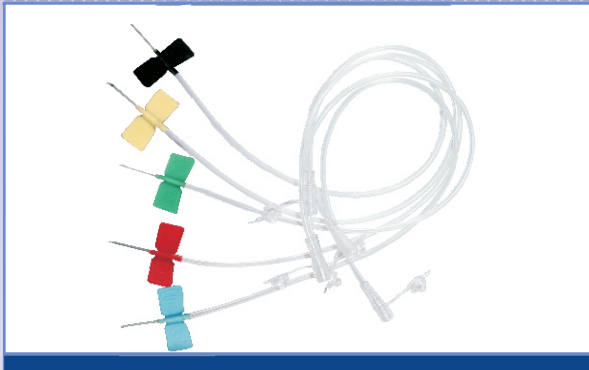

Options available :

- With or without needle
- Luer lock or Luer Slip or Rotating Luer lock
- Latex free automatic shut off valve and inbuilt injection port Self sealing “Y” injection port
- Latex free designed for leakage free multiple injections
- Moulded latex flush bulb for intermittent medication
- Air vented or non vented spike
- Needle free “Y” - Site
- Plastic pack or blister paper pack

PERITONEAL DIALYSIS TRANSFUSION SET ‘Y’ SHAPE SET

- Specially designed ‘Y’ shape transfusion set for administering dialysis solutions.
- Provided with 2 upper control clamps & 2 lower control clamps
- Proximal end is provided with suitable adaptor for easy connection to catheter unit.
- Kink resistant tubing

BLISTER PACK (SCALP VEIN SET)

- Scalp vein set is designed to provide rapid venous access with greater patient comfort during infusion.
- Short beveled siliconised needle facilitates a traumatic cannulation.
- Thin wall needle provided better flow rate per gauge, as in the same cannula more circumference is available for better flow of liquid.
- Butterfly shaped wings facilitates easy handling and attachment with the skin.
- Butterfly is connected to the soft nontoxic, non-irritant, siliconised tube which does not kink or coil-set.
- The proximal end of the set is provided with Female luer fitting which properly fits with all available models of I.V. Sets, Blood transfusion sets and Syringes etc.
- Each gauge needle is fitted on color-coded butterfly for immediate detection of needle size.
- Even when the needle is in the vein.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use.
- Inner box of 50 pcs. also available in paper pouch.
- Size : FG 16,18,19,20,21,22,23,24,25,26,27,
- Length : 30cm.

Size	G-18	G-19	G-20	G-21	G-22	G-23	G-24	G-25
Colour Code	Pink	Brown	Yellow	Green	Black	Sea	Red	Blue

3 WAY STOP COCK

Specifications :

- Manufactured from transparent Polycarbonate/PE
- With Moulded Luer Lock
- Unit Pack in Blister Pack
- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow

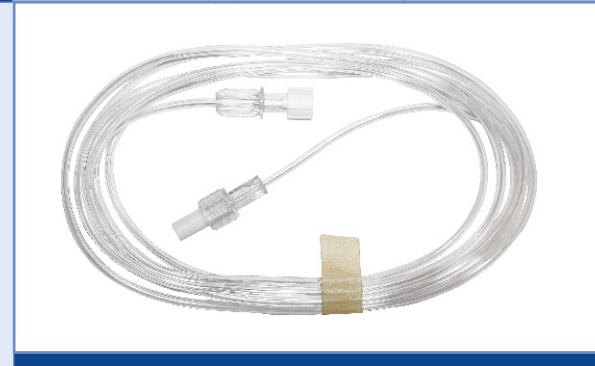

3 WAY STOP COCK WITH EXTENSION LINE

- Extension line with three way stop cock at one end & male luer lock connector at other end
- Soft, frosted & kink resistant PVC tubing provides uninterrupted fluid movement
- Tube length : 10, 25, 50, 80, 100, 150 & 200 cm
- Extension Tube dia : I Ø 3.0 mm, O Ø 4.1 mm
- Available with rotating Luer Lock
- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow

HIGH PRESSOR MONITORING LINE

- Small bore high pressure extension line suitable for high pressure monitoring
- Kink resistant PVC tubing resistant to breakage and damage
- For pressures up to 55 bar (800 psi)
- Capacity : 1.0 ml per 100 cm
- Tube dia : I Ø 1.5 mm. & O Ø 3.0 mm
- Male luer lock at one end & female luer lock at other end.
- Tube lengths : 25, 50, 100, 150, & 200 cm

URINE BAG (REGULAR) SAFLEX

- Manufactured from clinical grade PVC sheet .
- Provided with the non return valve to prevent the back flow of urine.
- Provided long siliconised connecting tube is fitted with new enlarged tapered connector to facilitate aseptic catheter urine bag connection.
- Specially designed hanger system for carrying & hanging arrangement.
- Drainage outlet system .
- Graduated up to 2000ml capacity with spare over flow limit.
- Printed with easy to read scale.
- Individually packed for single use only.
- Disposable non-toxic & pyrogen free.
- Sterile ready for use

URINE BAG (WITH MOULDED HANGER) SAFLINE

- Manufactured from clinical grade PVC Sheet.
- 100cm long super-smooth kink resistant tubing is easy to milk and ensures unrestricted flow.
- Specially designed hook facilities for carrying & handling of bag and holds the tube in upright position.
- Efficient non return valve prevents back flow of bacteria migration.
- Drainage outlet system.
- Modified, enlarged and tapered connector facilitates aseptic catheter-urine bag connection.
- Individually packed.
- Disposable, Sterile Ready for use.
- Capacity : 2000 ml.

URINE BAG (PREMIUM) SAFLOW

- Manufactured from clinical grade PVC Sheet.
- 100cm long super-smooth kink resistant tubing is easy to milk and ensures unrestricted flow.
- Non return valve prevents back flow of bacteria migration.
- Drainage outlet systems
- Specially designed for carrying & handling facilities.
- Individually packed.
- Disposable, Sterile ready for use.
- Capacity : 2000 ml.

MALE EXTERNAL CATHETER

- Penile Sheath/External Catheter.
- Manufactured from pure latex for soft and gentle feel.
- Male catheter is specially designed for urine incontinence for day and night use in male patient.
- Provided with self adhesive coated strip for proper fixing on to the penis.
- Proximal end is designed for easy connection to urine bag, making it simple to use.
- Individually packed.
- Inner box of 50 pcs.
- Disposable, Sterile ready for use.

PAEDIATRIC URINE BAG

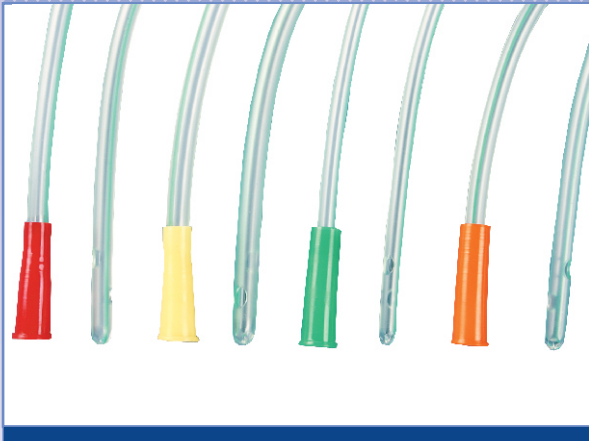

- Use of hypo-allergic adhesive for fixation minimises risk of allergy and injury.
- Suitable for both male and female infants.
- Sterile individually packed.
- Capacity: 100ml

UROMETER

- Urometer has been designed for accurate measurement of hourly urine output.
- Clear and transparent measured volume chamber provides accurate measurement.
- Completely closed circuit eliminates the risk of contamination.
- Urine bag attached directly with meter.
- Urine Bag Capacity-2 liters.
- A port is provided below the tapered end of connector to obtain mid-stream urine sample.
- Sterile and individually packed in box.
- Adult : 250 ml Paed : 100 ml.

NELATON CATHETER

- Manufactured from non -toxic non irritant.
- PVC compatible with catheter lubricants.
- Nelaton Catheters are used for short term bladder catheterisation through urethra.
- Distal end is coned for non traumatic introduction with two lateral eyes for efficient drainage.
- Proximal end is fitted with universal funnel shaped connector for extension.
- Frozen surface tubing for super smooth intubation.
- Funnel shape connectors are colour coded for instant identification of sizes.
- Length : 40 cm. Individually packed.
- Inner box of 100 pcs.
- Disposable, Sterile ready for use.

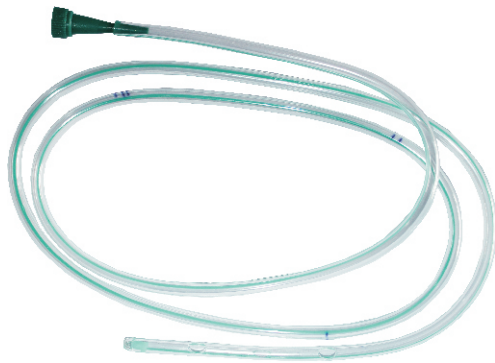

Size	FG-8	FG-10	FG-12	FG-14	FG-16	FG-18	FG-20	FG-22	Fg-24
Colour Code	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Royal Blue

T.U.R. SET

- Y-shaped set for Endoscopic irrigation during Trans Urethral Resection of prostate gland
- Manufactured from non-toxic, medical grade PVC
- Thumb operated clamps, help quick and smooth changeover of bottles
- Proximal end fitted with flexible latex tubing for easy connection to endoscope
- Sterile ready for use

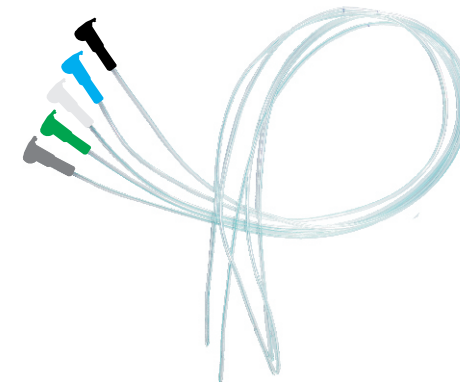

RYLE'S TUBE

- Manufactured from non toxic, non irritant PVC.
- Specially designed for naso gastric introduction for nutrition and aspiration of intestinal secretion.
- Distal end is coned with corrosion resistant PVC balls sealed into the tube, to assist the passage of the tubing during intubation.
- Four lateral eyes are provided for efficient aspiration and administration.
- The tube is marked at 50cm, 60cm & 70cm from the tip for accurate placement.
- Super smooth low friction surface facilitates easy intubation.
- Provided with X-ray o paque through out the length.
- Length : 105 cm.
- Individually packed.
- Inner box of 50 pcs.
- Sizes: Fg: 8,10,12,14, 6,18 & 20.
- Disposable, sterile ready for use.

INFANT FEEDING TUBE

- Manufactured from non toxic PVC non irritant to delicate mucosa.
- Suitable for neonates and paediatric nutritional feeding.
- Distal end is coned with two lateral eyes.
- Proximal end is fitted with female luer mount for easy connection feeding funnel or syringe.
- Low friction tubing & super smooth tip ensures trauma free intubation.
- Radio -opaque line is provided throughout its length for X-ray visualization.
- Length : 52 cm.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, sterile & ready for use.

Size	FG- 5	FG- 6	FG- 7	FG- 8	FG- 9	FG- 10
Colour code	Brown	Green	Yellow	Blue	Red	Black

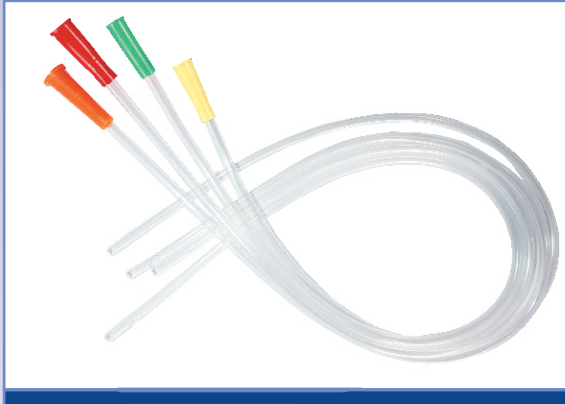

ABDOMINAL DRAINAGE KIT

- Soft and smooth catheter with large atraumatic eyes for efficient drainage.
- Radio opaque line on catheter.
- Specially designed handle holds tube upright and facilitates carrying.
- Sterile individually packed in convenient peel open pack.

Unit consist of

- Soft drainage catheter 50 cm long.
- Collection Bag of 2000 ml Capacity.
- Size : FG 20, 24, 28, 32

SUCTION CATHETER

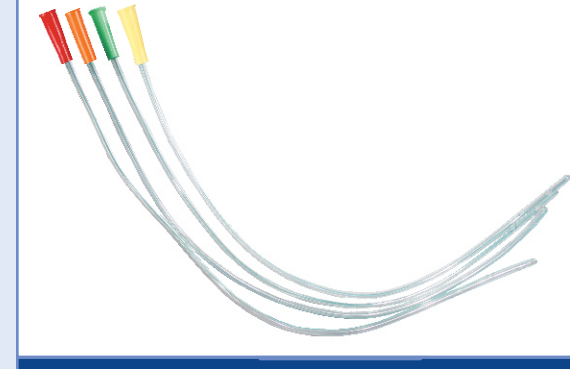

- Manufactured from non toxic non irritant medical grade PVC.
- Suction catheters are suitable for removal of secretion from mouth oropharynx trachea and bronchial tubes.
- Distal end is opened with one lateral eye.
- Frozen surface tubing for smooth intubation. .
- Colour coded for instant size identification.
- Length : 53 cms.
- Size : HK-60, HK-61.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, Sterile ready for use.

Size	8	10	12	14	16	18	20
Colour Code	Blue	Black	White	Green	Orange	Red	Yellow

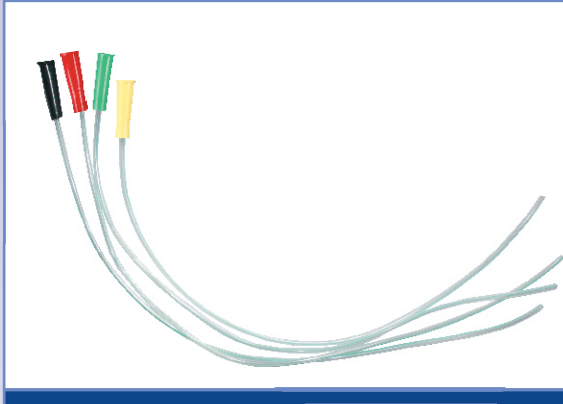

URETHRAL CATHETER

- Manufactured from Non toxic, Non irritant PVC.
- Most suitable for removal of secretion from mouth, trachea & bronchial tubes.
- Distal end is opened with one lateral eye.
- Proximal end is fitted with Universal funnel shape connector for connection to standard suction equipment.
- Funnel shape connectors are colour coded for size identification.
- Provided with x-ray opaque line throughout its length.
- Length : 40 cms.
- HK-90, HK-91.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, Sterile ready for use.

Size	FG-8	FG-10	FG-12	FG-14	FG-16	FG-18	FG-20
Colour Code	Blue	Black	White	Green	Orange	Red	Yellow

NASAL OXYGEN CATHETER

- Open distal end with multiple lateral eyes for even dispersion of oxygen and prevention of oxygen burns.
- Colour coded for size identification.
- Frozen surface.
- Length : 40 cms.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, Sterile Ready for use.

Size	FG-8	FG-10	FG-12	FG-14	FG-16	FG-18	FG-20
Colour Code	Blue	Black	White	Green	Orange	Red	Yellow

GUEDEL AIRWAYS

- Designed to maintain an unobstructed oropharyngeal airway during or following general anaesthesia and in patients who are unconscious for other reasons.
- Manufactured from EVA to achieve extra soft surface finish.
- Integral hard bite block avoids airway occlusion and biting of the tongue.
- Sterile individually packed.
- Sizes : 000, 00, 0, 1, 2, 3, 4.

RESPIRATORY EXERCISER

- Helps to develop, improve and maintain respiratory fitness
- Useful in restoring and maintaining lung capacity of post operative ambulatory and COPD patients
- Air filter for enhanced protection
- Transparent of exercise capacity

OXYGEN MASK

- Moulded face mask has adjustable elastic strap and integrated nose clip for proper positioning of mask on the mouth and nasal area.
- Rotating type connector for patient's comfort.
- Provided with 2 meter long star lumen tube to ensure continuous flow of Oxygen.
- Proximal end fitted with soft funnel shape connector for easy connection to oxygen source.
- Size : Adults , Child.

NEBULIZER MASK

- Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes
- Average particle size reneration is approximately 2 microns
- Complete kit consists of: Nebulizer Mask, Nebulizer Chamber, and 210 cm Star Lumen Tube

NASAL OXY MASK

- Suitable for for easy and efficient administration of oxygen
- Star lumen main tube to avoid accidental blockage
- Soft and kink resistant PVC tubing
- Soft twin prong nasal tips to ensure equal distribution of oxygen through both air passages which provides maximum patient comfort
- Available sterile or non sterile
- Tube length: 200cm
- Size: Adults, Paediatric & Neonatal

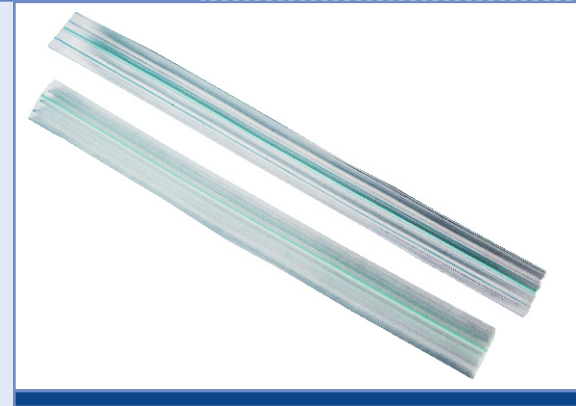

WATER SEALED DRAINAGE SYSTEM

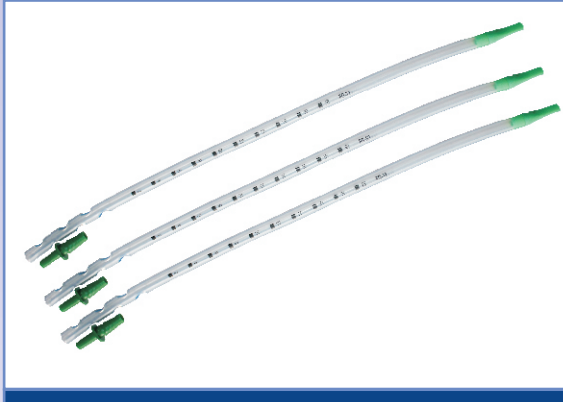

- For collection of drainage fluid from thoracic and abdominal cavity
- Moulded Hanger
- PVC drainage bag with 900ml & 2000ml

CORRUGATED DRAINAGE SHEET

- Extra soft super smooth PVC corrugated sheet for wound drainage.
- Provided with X-ray -opaque line.
- Multi channel drainage system for efficient drainage during operation.
- Size : 250mm x 25mm.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, sterile ready for use.

CHEST DRAINAGE CATHETER

- Thoracic Drainage Catheters are most suitable for post operative drainage after cardio thoracic and thoracic surgery.
- Distal end is opened with super smooth large eyes to maximize the drainage from the chest.
- Proximal end is fitted with specially designed tapered tongue to provide excellent forcep grip and non traumatic insertion.
- Catheters are marked at 2cm from the last eye to ascertain the depth of placement.
- Individually packed.
- Inner box of 50 pcs.
- Length : 45 cm.
- Size : Fg: 16, 20, 24, 28,32, 36 & 40.
- Disposable, Sterile ready for use.

VAC SET

- Closed wound drainage device under negative pressure with option to use one or two catheters.
- Radon drains have radio opaque line and burr free eyes for efficient trauma free performance.
- Graduated bellows allows user to measure drainage volume.
- Different catheter size available to meet moderate to heavy drainage needs.

Unit consists of

- bellow unit capacity 800 ml / 50 ml
- Connecting tube with clamp and “Y” connector, Curved needle with matching catheter & spare perforated catheter.
- Unit packed in a tamper proof box.
- Available Sizes: FG 6, 8, 10, 12, 14, 16, 18.

VACCUM SUCK SUCTION SET

- Transparent moulded Yankaur suction handle attached with two and half meter long tubing for efficient and atraumatic suction.
- A port is provided at the distal end of handle for finger tip control facility during suction management.
- Sterile individually packed in soft blisters.
- Tube length : 2.5 meter.
- Tube diameter : FG 27

KARMAN CANNULA

- Specially designed for aseptic medical termination of pregnancy.
- Distal end is coned with tow large lateral eyes to facilitates the curette.
- Suitable for use with MTP syringe or suction apparatus.
- Individually packed.
- Inner box of 100 pcs.
- Size :Fg: 5,6,7,8,10 & 12.
- Disposable, Sterile Ready for use.

Size	5 mm.	6 mm.	7 mm.	8 mm.	10 mm.	12 mm.
Colour Code	Grey	Orange	Red	Green	Blue	Royal Blue

CLAMP-U / CLAMP-R

- Manufactured from non toxic medical grade polymer.
- Designed for clamping the Umbilical Cord immediately after birth.
- Provided with double purpose security lock click to indicate the correct locking & protect against accidental re-opening.
- Finger grip ensures safe and convenient handling, particularly when gloves are wet.
- Provided with grooves all along the length to prevent the slipping of the Umbilical Cord and to retain it in the same position.
- Available reopenable & non openable.
- Individually packed.
- Inner box of 100 pcs.
- Disposable, Sterile ready for use.

MUCUS EXTRACTOR

- Specially designed for aspiration of secretion from Oropharynx in newly born babies to ensure free aspiration.
- Clear transparent container permits immediate visual examination of the aspirate.
- Also suitable for obtaining mucus specimen for micro biological examination.
- Spare closure cap is provided to seal the container for safe transportation of specimen to the laboratory or aseptic disposal of container.
- Low friction surface catheter is provided with open end silk smooth round tip for trauma free insertion.
- Capacity 20 to 25ml.,
- Individually packed.
- Inner box of 50 pcs.
- Disposable, Sterile Ready for use.

SURGICAL GLOVES

- Made from pure natural rubber latex for greater finger dexterity.
- Non finger fatigue Keeps the hands cool and comfortable.
- For single use only.
- Individually packed
- Disposable, Sterile ready for use.
- Sterile Powder-Free Surgical Gloves
- Sterile pre-powdered/ powder free gloves can be supplied on request.
- Non sterile also available.

PRODUCT INFORMATION

BRAND NAME	TYPE	TEXTURE	SIZES	SPECIFICATION
MEDIAID	Sterile/Non Sterile Disposable	Smooth	6 ½, 7	IS : 4148 ASTM-D :3577
	Polyethylene 120 Per/Pack/per pair	Micro Rough	7 ½, 8	

25 pair to can dispenser box 600 pair to a master carton.

EXAMINATION GLOVES

- Manufactured from ultra thin soft HDPE.
- Sterile ready for use.
- Individually packed.
- Inner box of 250 pcs.
- NON STERILE also available.
- Bulk packing.

DISPOSABLE FACE MASK

DISPOSABLE FACE MASK

- Made from soft cloth
- Double layer mask offering excellent bacterial filtration efficiency
- Super smooth soft ultrasonically welded mask is most comfortable during use.
- Individually packed.
- Inner box of 100 pcs
- Disposable, sterile ready for use.

DISPOSABLE CAP

- Manufactured from soft non-woven green/blue cloth.
